

Explicit square matrix multiplication schemes

Exact bilinear counts over $\mathbb{Q}$ • Best available bounds in this catalogue • Pinned literature comparison

Detail through 16,384

All saved sizes

- Pinned literature + finite closure
- Literature + catalogue + same closure
- Saved scheme
- ✕ Saved candidate loses comparison
- - - LITA32 reference: 2.758660
- Finite literature closure
- ◆ Specific published construction

Dense curves use the same declared composition closure; large diamonds are individual constructions. No claim of globally optimal ranks.
